

XHD Series

EXTREME HEAVY-DUTY BUCKET

IDEAL FOR USE WITH TERRAIN THAT HAS
BEEN MINED OR BLASTED

**SAFETY FACTOR 4X THE MAXIMUM
STRENGTH OF THE EXCAVATOR.**

**LOADING AND DUMPING AT OPTIMIZED
ANGLES.**

**RECOMMENDED CHOICE IF YOU CHANGE
YOUR TEETH EVERY 200 HOURS.**

**AVAILABLE FOR EXCAVATORS RANGING
FROM 20 TO 120 TONS.**

- Easily interchangeable bolted-on wear plates
- Wear plates are added on the backing and side boards to prevent premature wear
- The half-arrow edge is 100 %protected
- Heel shrouds will protect your bucket welds from abrasion and premature wear
- The V-shaped blade makes penetrating blasted materials easy

These buckets are designed for the worst winter and mining conditions.

- Manufactured from extremely wear-resistant materials and are assembled with great precision.
- Our XHD buckets are subject to several quality tests and are approved by an engineer.

G4P Series

4-IN-1 BUCKET

COMBINES THE USE OF A GRAPPLE, THE STRENGTH OF A STANDARD THUMB, AND THE FUNCTIONS OF A DITCHING BUCKET

- **COMPACT AND VERSATILE DESIGN**
- **ELIMINATE MAINTENANCE PROBLEMS**
- **45° INCLINATION ON EACH SIDE**

AVAILABLE FOR EXCAVATORS RANGING FROM 3.5 TO 40 TONS.

- Better precision and control
- Maximizes the efficiency of your attachment
- Improves safety on construction sites
- Increases machine productivity and versatility

PROPOSED COMBINATION WITH TILTING QUICK-COUPLER

- 45° inclination on each side
- Maximizes the efficiency of your attachment
- Available for all types of quick-couplers

EASILY SWITCH BETWEEN LEVELING, HANDLING, DIGGING, AND EXCAVATING.

GPT Series

TILT DITCHING BUCKET

45° TILT ON EACH SIDE

- SUPERIOR DESIGN, 45° TILT ALLOWS MOVEMENT ON EACH SIDE.
- SAVES TIME AND MONEY FOR THE OPERATOR.
- AVAILABLE IN DIFFERENT SIZES AND CAPACITIES FOR DIFFERENT TYPES OF WORK AND EXCAVATORS.

AVAILABLE IN 2 OPTIONS:

- WITH CYLINDERS
- WITH HELICAL ROTATION (HELAC)

- HYDRAULIC CYLINDERS WITH TOTAL PROTECTION FROM DEBRIS
- HARDENED CHROME-PLATE AXLE WITH GREASEABLE WEARING RINGS
- AVAILABLE IN MULTIPLE DIMENSIONS AND CAPACITIES FOR DIFFERENT TYPES OF WORKS AND EXCAVATORS

AVAILABLE FOR EXCAVATORS RANGING FROM 3.5 TO 40 TONS.

Interchangeable
female coupler

Hardened chrome plate

Interchangeable bolted blade optional

GPF Series

DITCHING BUCKET

FILLING AND DUMPING AT OPTIMIZED ANGLE

BUILT SOLID

GRYB ditch buckets are built with solid and resistant steel, allowing you to work with great precision. Available in different sizes and capacities for different types of work and excavators.

- Filling and dumping at optimized angle
- Reversible quick-coupler available up to 15 tons
- For excavators ranging from 1.5 to 40 tons

GSF | GSD Series

SKELETON BUCKET

IDEAL FOR RECYCLING MATERIALS

BUCKET MADE OF HEAVY-DUTY STEEL EXTENDED WEAR RESISTANCE

MAINLY DESIGNED FOR EXCAVATION AND DITCHES.

- Space between plates can be customized from 1 in to 24 in based on your needs
- General purpose model also available
- For excavators ranging from 12 to 40 tons
- Optional: interchangeable bolted cutting edge
- Optional: interchangeable bolted teeth

Spacing for the fork opening from 1 in to 24 in

Custom made to suit your needs

GPV Series

TRAPEZOIDAL BUCKET

PERFECT FOR TRENCH DIGGING

- Saves time
- 45° cutting edge angle
- Optional: interchangeable teeth
- For excavators ranging from 3.5 to 40 tons

GRD Series

RECESSED BUCKET

TO OPTIMIZE FORCE

NEW!

The **GRYB Recessed Bucket** combined with a standard Pin Grabber provides excavation power equal to the original bucket thanks to its exclusive shape, which respects the conventional excavator tilting radius.

PEI Series

ROOT RAKE

IDEAL FOR CLEARING AGRICULTURAL OR WOODED LAND

The curvature makes extraction and handling a breeze. Whether it's clearing farmland or forests, nothing can stop it.

Interchangeable teeth optional

- Extra heavy-duty steel design
- Available in different sizes for different types of work

PROPOSED COMBINATION

A grapple or a thumb can be added to your rake.

This combination will assist you during your material handling situations. It is the needed helping hand to speed up work.

- CHOICE OF INTER-FINGERS SPACE
- CHOOSE THE NUMBER OF FINGERS
- ANTI-TRAPPING SYSTEM INCLUDED

RIP Series

RIPPER

THE ARCHED SECTION ALLOWS FOR EASY PENETRATION OF ROCKY AND FROZEN GROUND

Bolted-on interchangeable tooth

- Made of heavy duty steel
- Offers a superior digging force and a leverage effect
- Available in different sizes for different types of work and excavators

- INTERCHANGEABLE BOLT-ON TOOTH
- MINIMAL MAINTENANCE
- FOR EXCAVATORS RANGING FROM 1.5 TO 85 TONS

STS Series

STUMP SHEARS

IDEAL FOR CLEARING FARMLAND OR FORESTS

INNOVATIVE DESIGN

Allows you to perform long range jobs thanks to the ideal shape and angle of clearance of the removable part.

For excavators ranging from 1.5 to 40 tons.

- 2 X STRONGER THAN THAT OF THE COMPETITION
- BUILT OF EXTRA HEAVY-DUTY STEEL
- NOTHING STANDS IN THE WAY OF OUR ROOT RAKE!
- MECHANICAL ARM AND SUPPORT INCLUDED

Female bolted and interchangeable quick-coupler

2 interchangeable cutting edges

Bolted-on interchangeable teeth

POB Series

HYDRAULIC THUMB ON AXLE SUPPORT

FACILITATES MOVING LARGE OBJECTS
OR SETTING DOWN ITEMS IN SPECIFIC PLACES

- CHOICE OF 2-4 FINGERS
- OUR IMPROVED DESIGN ALLOWS YOU TO MAINTAIN GOOD VISIBILITY
- 135° ROTATION, LOCKED VALVE INCLUDED

Fixed on the axle support, this thumb design follows the rotation of your bucket and allows maximum yield when performing your work.

Available in different sizes, for any type of excavator.
FOR EXCAVATORS RANGING FROM 1.5 TO 40 TONS
